

Today you will learn how to write addition problems.

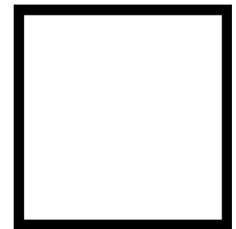

First, solve this problem. You have 2 peaches and then your mother gives you 3 more peaches. How many cookies do you have now?

Write the number in the box.

2

3

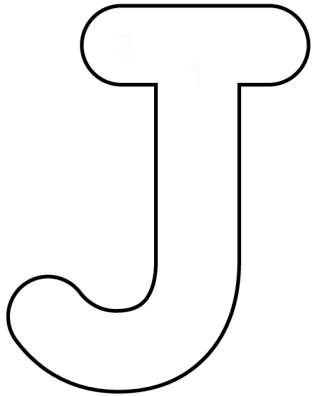

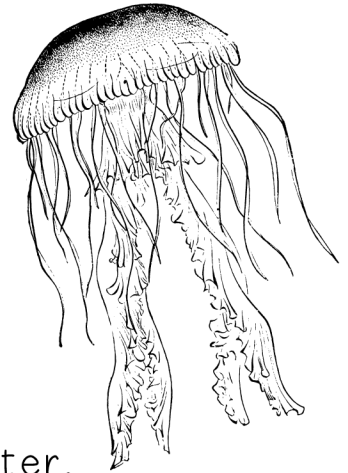

This is how you write down the same addition problem using the plus sign and the equal sign. This is what the problem says, "Two plus three equals five." Can you repeat that at loud while pointing to each part of the problem?

$$2 + 3 = 5$$

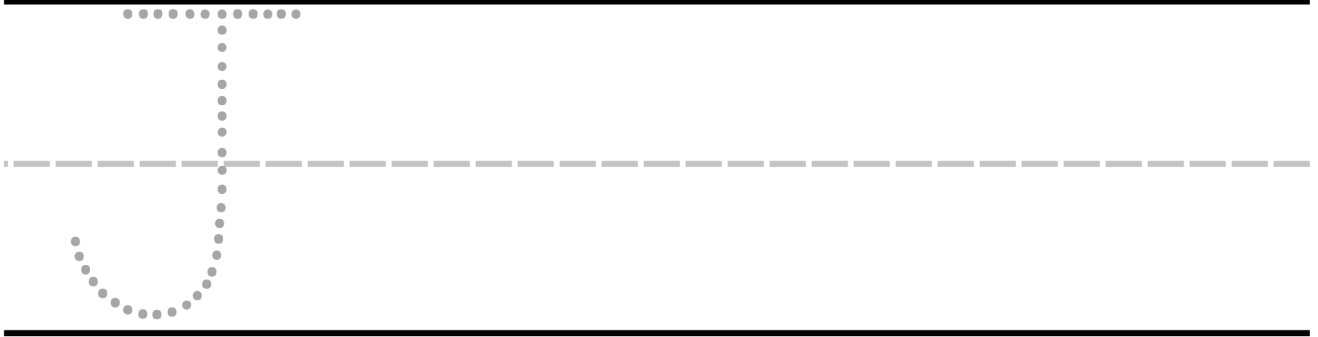

Color the letter.

Circle the letter J.

Color the picture.

**JELLYFISH**

Trace the letter. Write the letter.

Circle the letter J.

I J L J I
L J J L I
