

Today you will learn how to write subtraction problems.

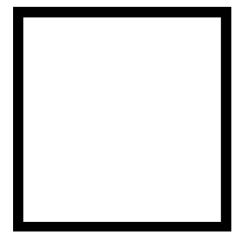

First, solve this problem. Your mother gives you 3 pears. You eat 2 of the pears.
How many cookies do you have now? Write the number in the box.

3

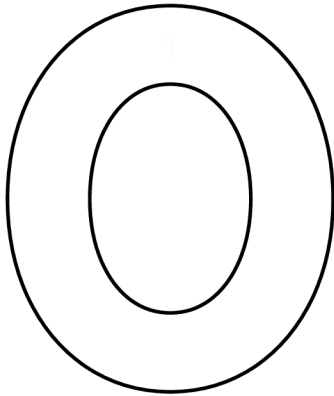

2

This is how you write down the same subtraction problem using the minus sign and the equal sign. This is what the problem says, "Three minus two equals one."
Can you repeat that at loud while pointing to each part of the problem?

$$3 - 2 = 1$$

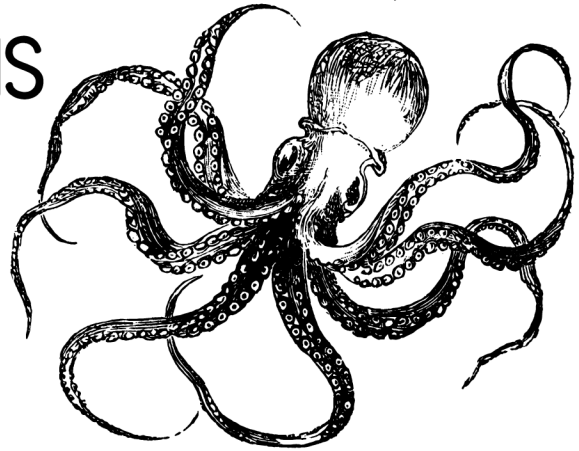

Color the letter.

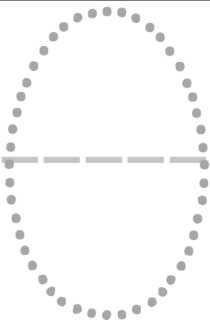

Circle the letter O.

OCTOPUS

Color the picture.

Trace the letter. Write the letter.

Circle the letter O.
